PROFESSIONAL EXPERIENCE

TECH R&D INTERN

World Vision Canada | Aug 2019 – May 2020

- Designed and developed internal web tools and external websites using HTML, CSS, JavaScript, jQuery, React, and Bootstrap, keeping in line with brand guidelines regarding colour, fonts, spacing, etc.

- Created research reports on new and developing technologies and worked to theorize possible use cases to pitch to business units

- Helped plan, build, and provide support on end-to-end solutions using a variety of technologies, from hand-coded websites to no-code RPA/workflow automation systems

FRONT-END WEB DEVELOPER

Health-Bridge | Jul 2019 – Aug 2019

6-week contract position

- Developed the front-end of a web application for a healthcare start-up as the only front-end developer. Built (and designed) a React UI with Redux state management and connected it to an API.

EDUCATION

ONLINE WEB DEVELOPMENT BOOTCAMP

Flatiron School | July 2019

- Learned HTML5, CSS, OOP, Ruby, SQL, ORM, Sinatra, Rails, JavaScript, React, Redux, JSON
- Projects built during this bootcamp can be seen on my GitHub page
